d.o.b. 06th feb 1982
sex female

I received my architectural education at the *School of Planning & Architecture, New Delhi, India*. After graduation I went to work at *Osservatorio Colore Liguria, Italy* [Jan'06] on urban projects focussing on the application of colours in the external environment. Following my return to Delhi [Nov'06], I worked with *SKDasAA+U* on urban residential, commercial and institutional projects. My interests in sustainable development in the context of urban transformations led me to *K.U.Leuven* ['07] where I completed the *Master of Human Settlements* programme ['07] & the *Master of Urbanism and Strategic Planning* ['08] degree programme.

I was consultant architect to the *National Research Development Council* ['09-'10] for research, design, coordination and supervision of the construction of prototype *aanganwadis* [*rural child care centre*] for the Govt. of Madhya Pradesh, India, as a part of a larger flagship UNICEF initiative. Till recently I have been working at *Vraksh Design Studio, New Delhi* ['10-'15] as a lead architect, handling design and development of various residential and institutional architectural projects in the NCR region. Being actively involved with *Enness Designs, New Delhi* ['11-'14] and *Turnkeyy, Kolkata* ['16-'20] for design & supervision of various commercial interior design projects exposed me to multiple facets of the extended construction industry and helped me to evolve as a professional. I was an associate at *Hexagramm Design Studio, New Delhi* ['18-'20] where I handled the landscape portfolio and design management.

As a parallel to practicing architecture professionally, I have kept my academic inclinations alive as guest faculty at the *School of Planning and Architecture, New Delhi* ('10), *Guru Gobind Singh Indraprasta University, New Delhi* ('11, '15), *MBS School of Planning and Architecture, New Delhi* ('11-'14), *Jamia Milia Islamia, New Delhi* ('14-'16, '18), *G.D.Goenka University, Haryana* ('14-'18, '20) and *IIT Roorkee, India* (2021) for the B.Arch program.

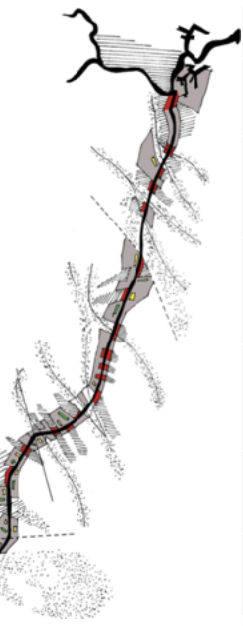

I take my professional commitments seriously and enjoy being part of a team dealing with large scale projects with varying degrees of multidisciplinary co-operation. I have had on the ground experience for the last 13 years in the Delhi National Capital Region, managing design & execution teams, helping clients with multi-partite negotiations, troubleshooting individual employee issues, connecting vendors to the workflow and working through all this with creativity & integrity. However, not letting experience get in the way, I am looking forward to expanding further as a professional over the coming months and years.

A handwritten signature in black ink that reads "Ruchira Ganguli".
